Colour Codes	Workshop Series	Synopses
	UNCOVERING WATERCOLOURS	This series of workshops will encourage you to experiment with a variety watercolour techniques as well as give you an understanding of the materials you can use. Each workshop builds upon techniques learnt in previous workshops, with the final class (to be decided by you, of course) being a culmination and exploration of what you have learnt so far. Signing up for several sessions in series or in prior classes in drawing is encouraged, but not necessary. Each student will get to progress accordingly with more sessions attended.
	FUNDAMENTALS OF PAINTING WITH ACRYLIC PAINTS	This series of workshops is a practical and informative instruction to using acrylic paints. We will be looking at the materials needed to start painting and exploring different techniques in applying acrylic paint whilst using acrylic paper to create a small painting each. These workshops are designed to give a basic knowledge to equip the learner to feel confident to start painting, time and again. To acquire more skill-sets, attending more classes in this series or prior sessions in drawing is encouraged, but not necessary.
	DEVELOPING DRAWING SKILLS	This series of drawing workshops provides students with step-by-step instructions on the basic elements of drawing, with a focus on proportion, line and tone. Using everyday still-life objects, we also intend to help students build upon their observational skills and spatial awareness.
	WORKING WITH CLAY	In this series of workshops, students will be playing, experimenting and creating with air-drying, non-toxic clay. Dogs, cats, aliens, flowers, monsters and sculptures are just some of the things that can be created in this fun kids' workshops! When finished, the objects can be left in studio to dry or taken home to be painted.
